ABDELLAHI AHMED AHMED BABA

Software, Network & Security Engineer | Full-Stack · Network Automation · Information Security

Tunis, Tunisia · abdellahiahmedahmedbaba@gmail.com · +222 43638670

abdellahiahmed.vercel.app · github.com/AbdellahiAhmed · linkedin.com/in/abdellahiahmedahmedbaba

PROFESSIONAL SUMMARY

Software, network and security engineer based in Tunis, delivering production business systems end to end. At MCS Consulting, built SOMAP RH, the HR and payroll platform in production for a national fuel-station network, a land-portfolio management platform backed by 641 automated tests, and six custom Dolibarr ERP modules, including international import tracking for CAMEC. Lead developer of Traiteurs, a Flutter + Supabase app on the App Store and Google Play. Network foundation from Moov Mauritel and A2 Holding internships, CCNA training and Python automation; now pursuing a Master's in Information Systems Security (ISI Tunis).

TECHNICAL SKILLS

Languages: PHP, TypeScript, JavaScript, Python, Dart, SQL

Backend: Laravel (Policies, Form Requests, scheduler), Inertia.js, Flask, Symfony / API Platform, REST APIs

Frontend & Mobile: React, Next.js, Flutter, Tailwind CSS, shadcn/ui, RTL / i18n (AR · FR · EN)

Databases: MySQL, PostgreSQL (PL/pgSQL, Row-Level Security), Supabase

Quality & DevOps: PHPUnit, Playwright, Vitest, GitHub Actions CI, Docker / Laravel Sail, cPanel and Vercel deployment, Linux

ERP: Dolibarr custom modules (PHP / MySQL, triggers, PDF models, permissions)

Networking: CCNA, TCP/IP, Routing & Switching, OSPF, VLANs, HSRP, Netmiko, Nmap, EVE-NG, GNS3

PROFESSIONAL EXPERIENCE

Full-Stack Developer — MCS Consulting Dec 2025 – Present

Nouakchott, Mauritania · Remote from Tunis since Sep 2026

- Built **SOMAP RH**, the HR and payroll platform used daily across SOMAP's fuel stations: GPS-geofenced attendance, leave, advances, payroll and company accounts, with money handled in locked, idempotent transactions and **425** automated tests in CI.
- Built a land-portfolio management platform (acquisitions, projects, mortgages, sales, 8 report families) on Laravel 12 + React 19 with 5-role access control, a full audit trail and **641** automated tests.
- Delivered **6** custom Dolibarr ERP modules in PHP/MySQL: CAMEC import tracking, manufacturing with weighted average cost, trade and financial reporting, fleet and fuel, mail and equipment management.
- Built APOSB (POS and commerce management on Laravel + React + MySQL + Docker) and OMDHD, the trilingual AR/FR/EN institutional website for a Mauritanian NGO.

Full-Stack Developer & Network Engineer Intern — A2 Holding Jul 2026 – Aug 2026

Nouakchott, Mauritania

- Responsible for the company's complete payment system, end to end, in a group running both a software unit and an ISP.
- Contributed to the design of an in-house mobile app; worked on web platforms, PostgreSQL and Linux.

Network Administration & Automation Intern — Moov Mauritel Jun 2025 – Aug 2025

Nouakchott, Mauritania

- Designed multi-router and multi-switch topologies in EVE-NG, GNS3 and Packet Tracer to validate routing and switching changes before production cutover.
- Co-built AutoNetConfig, a Python + Netmiko + Flask toolkit for SSH configuration, scheduled backups, Nmap discovery and live topology views.

KEY PROJECTS

SOMAP RH — HR & Payroll Platform (in production) **In daily use at SOMAP**

Laravel 13 · React · TypeScript · Inertia.js · MySQL · Playwright · GitHub Actions

- Clock-in inside a configurable geofence, decided on the server (Haversine), duplicate-proof through a row lock plus a database unique constraint, with every attempt kept for HR review.
- Monthly payroll with itemised deductions (advances, debt instalments, absences, lateness), company accounts with an immutable ledger, and segregation of duties so nobody approves or pays their own request.
- Report explorer with Excel export, daily presence report on WhatsApp; 425 tests and Playwright journeys in CI.

Land Portfolio Management Platform **Private client**

Laravel 12 · React 19 · TypeScript · Inertia.js · shadcn/ui · MySQL · PHPUnit

- Covers parcels, acquisitions with instalments, multi-parcel projects, expenses, mortgages and sales through to the realised result, with an executive dashboard and 8 report families exported to Excel and PDF.
- Domain-driven architecture (actions, policies, presenters per domain), 5-role access control, audit trail, and no financial or legal record ever hard-deleted; 641 automated tests in CI.

CAMEC — International Import Tracking (Dolibarr) **Client delivery**

PHP · MySQL · Dolibarr · Incoterms 2020 · KPI Dashboard

- Replaced the medical procurement agency's Excel tracking with a 15-step order → shipment workflow: computed status and delays, immutable date history, ISO 6346 containers, document checklists and follow-ups.
- Shipped with 6 KPIs, a security review, performance tested on 5,000 dossiers, user guides and an acceptance kit.

Traiteurs — Catering & Delivery Platform **App Store**

Flutter · Supabase · PL/pgSQL · React Admin · Bankily · Masrivi · Sedad

- Lead developer in a small team (about 60% of 1,500 commits): clients, caterers and drivers in real time, with GPS tracking, delivery broadcast to nearby drivers, wallet and QR credit codes.
- Integrated three Mauritanian mobile-money rails on Supabase Auth, Postgres, Realtime and Row-Level Security, plus a React operations console with a live driver map and commissions.

AutoNetConfig — Network Automation Platform **Moov Mauritel**

Python · Flask · Netmiko · Nmap · EVE-NG

- SSH configuration and scheduled backups across Cisco and Fortinet devices, HSRP and server monitoring, Nmap discovery and live topology views, validated on an EVE-NG enterprise lab.

OxCoreX — Crypto Trading Platform **oxcorex.com**

Next.js 16 · Supabase · PostgreSQL · Tailwind CSS v4

- Arabic RTL user app and English admin: USDT deposits, protected withdrawals, KYC and referrals on Row-Level Security.

EDUCATION

ISI Tunis — Master's, Information Systems & Infrastructure Security (SSII) 2026 – Present

Tunis, Tunisia

ISCAE — Bachelor's Degree (Licence), Computer Networks & Telecommunications 2023 – 2026

Nouakchott, Mauritania

CERTIFICATIONS

CCNA Training — III-Networking, 2024 · EVE-NG Training, 2025 · Python Programming — Udemy, 2025
